

Wandle Wildlife Drawing Competition Entry Form

The River Wandle is bursting with wildlife! Kingfishers flit along the banks and trout swim in the water. But it's not all kingfishers and trout! Many birds, such as herons and grey wagtails, as well as other animals, like voles, foxes and dragonflies visit the river. In the water are exciting minibeasts such as cased caddis, dragonfly larvae and great diving beetles.

If you are aged between 5 and 11 years old, why not enter our Wandle Wildlife drawing competition, for a chance to win some exciting prizes? You can chose to draw a wildlife scene including the River Wandle and some wildlife, or just concentrate on drawing one creature.

You can use paint, pens, crayons, glitter pens or anything else you like to make your drawing come to life!

Just read the Terms and Conditions below, complete the slip and send it in, along with your drawing to us. We'll display all of the drawings at the Wandle Wildlife Fun Day on Tuesday 1st August, 11am-2pm at Sutton Ecology Centre. For more information about the day, visit suttonnature.wordpress.com/events.
